FOR IMMEDIATE RELEASE June 16, 2009

OUT NOW! Foam magazine #19 'Wonder'

The latest issue of Foam Magazine 'Wonder' will be in stores worldwide from the 21st of June 2009! This Summer issue of Foam Magazine is devoted to an open-minded and playful way of looking at the world. It focuses on our ability to marvel at banal, everyday things and the power of photography to capture this in images. Images that make us experience reality just a little differently than usual..

The photographers in this issue show us things to which we would not normally pay any attention, or which we would not find worth looking at. They suddenly prove to be bizarre, absurd, wondrous, poignant or simply beautiful. There are great differences between the six portfolios, both in terms of subject of matter and in their photographic approach but all photographers, each in their own way, interpreted the theme of Wonder.

Although our society is too focused on usefulness and efficiency to be amazed by the things around us, wonder is not just something for daydreamers. Put your day-to-day worries and time consuming practicalities aside and experience the world through photography just a little different then usual with Foam Magazine #19 'Wonder': the new issue with a magic touch.

Portfolios: Jaap Scheeren, Jessica Backhaus, Syoin Kajii, Koen Hauser, Madi Ju & Patrick Tsai, Sanna Kannisto

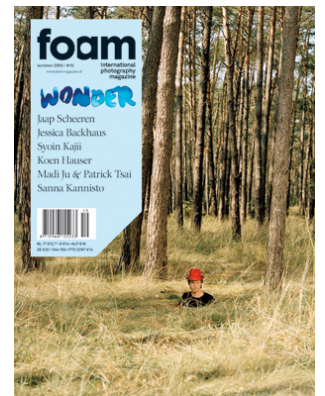

Note to the editors

For more information, interview requests with the photographers or images, please contact: Eva Valkhoff, communication, e-mail: eva@foammagazine.nl, T: +31 20 462 20 62
